PROFILE

Junior Software Architect with a strong passion for designing scalable, efficient, and user-focused software solutions. Skilled in system design, development frameworks, and translating business needs into technical architecture.

PROFESSIONAL EXPERIENCE

Full-Stack Developer   08/2024 – present
Inoui Agency   France
- Develop and maintain scalable web applications using the MERN stack.
- Design and implement RESTful APIs and microservices for efficient functionality.
- Optimize front-end components for performance and user experience.
- Manage database design, server-side logic, and secure user authentication.

Full-Stack Developer Intern   02/2024 – 08/2024
Inoui Agency   France
- Developed fluid and responsive user interfaces from Adobe XD mockups using Vue.js.
- Built a web application with the MERN stack, incorporating microservices, user authentication, RESTful APIs, and database management.
- Designed and implemented an AI-powered face recognition module using tools like TensorFlow and OpenCV.

Frontend Developer Intern   04/2023 – 12/2023
BlueOcean Gaming   Slovenia
- Rewrote an existing web application using React.js for better performance and maintainability.
- Integrated RESTful APIs for seamless data handling and dynamic functionality.
- Used tools like Redux, Axios, and React Router to enhance usability and state management.

Full-Stack Developer Intern   06/2022 – 09/2022
BeeCoders   Tunisia
- Built a gaming e-commerce website using React.js, Node.js, and MongoDB for product management, cart functionality, and secure transactions.

SKILLS

Programming Languages
- JavaScript, Typescript, Java, HTML, CSS.

Methodologies
- Agile (Scrum, Kanban) methodologies for project management and development.

Frameworks & Libraries
- React.js, Vue.js, Node.js, Express.js, Redux, Axios, SpringBoot

Database Management
MySql , MongoDb, NoSql

EDUCATION

Engineering Degree in Software Architecture   2024
Private Higher School of Engineering and Technology (*ESPRIT*)   Tunisia
